Planting Table for Vegetables

The dates given in the table below apply to the vicinity of Boston and all the southern part of New England. In northern New England, planting should be done three weeks later. This holds good for sowing out-of-doors or transplanting out-of-doors. For starting seeds in the house, this table holds good for the entire eastern states. For Connecticut, New York, New Jersey and Pennsylvania it should be figured three weeks ahead of Boston time. All of the middle western states can be figured the same as New York, but all states south of Pennsylvania should be figured twelve days in advance for every one hundred miles southward.

Variety	When to Sow the Seed			When to Set Out Started Plants	Depth Seeds Should be Sown	Distance Apart in the Row	Distance Between the Rows	Distances when Planted in Hills or Drills		Amount of seed required	Season of Crop
	Indoors	Hotbed	Outdoors					Between Drills	Between Hills		
Artichoke, Globe	March to April	April	June	June	½ inch	1½ feet	3 feet	.....	3 feet	.....	September
Artichoke, Jerusalem (Tubers)	.....	.....	.....	May	6 inches	.....	.....	.....	3 feet	3 tubers in hill	September
Asparagus, Seed	.....	.....	May	.....	½ inch	.....	.....	12 inches	.....	1 ounce for 50 feet	May to June
Asparagus, Roots	.....	.....	.....	April to May	8 inches	12 inches	3 feet	.....	18 inches	.....	May to June
Beans, String or Wax	.....	.....	May to August	.....	2 inches	.....	.....	2 feet	.....	1 quart for 100 feet	July to Sept.
Beans, Lima, Bush	April on sod	April on sod	June	End of May	2 inches	.....	.....	2 feet	.....	1 quart for 100 feet	Aug. to Sept.
Beans, Pole	.....	.....	May to June	.....	2 inches	.....	.....	.....	2½ feet	1 quart for 100 hills	Aug. to Sept.
Beets	.....	.....	May to August	.....	½ inch	.....	.....	18 inches	.....	1 ounce for 50 feet	July to Sept.
Brussels Sprouts	March	April	May	May to June	⅛ inch	18 inches	2 feet	.....	.....	1 ounce for 2,000 plants	October
Cabbage, Early	March	March	May	May to June	⅛ inch	12 inches	2 feet	12 inches	.....	1 ounce for 2,000 plants	July to Aug.
Cabbage, Late	.....	April	May	July	½ inch	24 inches	3½ feet	12 inches	.....	1 ounce for 2,000 plants	Aug. to Oct.
Carrots	.....	.....	May to June	.....	Raked into surface	.....	18 inches	18 inches	.....	1 ounce for 100 feet	July to Oct.
Cauliflower, Early	.....	April to May	May	May	⅛ inch	24 inches	4 feet	.....	.....	1 ounce for 2,000 plants	July
Cauliflower, Late	.....	.....	June	July	½ inch	24 inches	4 feet	.....	.....	1 ounce for 2,000 plants	September
Celery	.....	April	May	July	⅛ inch	10 inches	3 feet	12 inches	.....	1 ounce for 2,000 plants	Sept. through winter

APPENDIX G

Planting Table for Flowers

This table holds good for outdoor planting in Massachusetts, Rhode Island and the southern part of New Hampshire. For the northern part of New Hampshire, Vermont and Maine it should be figured three weeks later. For Connecticut, New York, New Jersey and Pennsylvania it should be figured three weeks ahead of the time given here. All of the middle western states can be figured the same as New York, but all states south of Pennsylvania should be figured twelve days in advance for every one hundred miles southward. The depth to plant is not given, as such directions are often misleading. Small seeds should not be covered at all. The rule for the larger seeds is to bury them to a depth of four times their size.

Variety	When to Sow Seed			When to Set Out Plants	Distance to Transplant	Height of Plants	Season of Bloom	Color of Bloom
	Indoors	Frames	Outdoors					
Achilea (Sneezewort) ..	.....	.....	June to October	May to June	12 inches	2½ feet	July to October	White
Ageratum	March	April	May	May 15 to June 15	6 inches	4 to 8 inches	June to October	Blue, white
Alyssum (Annual)	.....	April	May 1 to June 15	May 15 to June 15	4 inches	3 to 6 inches	June to October	White
Alyssum (Perennial) ...	.....	.....	June 1 to Sept. 15	May 1 to June 15	6 inches	6 inches	July to October	Yellow
Aquilegia (Columbine) .	.....	.....	June 15 to Sep. 15	May to Sept.	8 inches	2½ feet	June to September	White, yellow, blue, pink, variegated
Asters (China).....	March to April	March to May	May 10 to June 15	May 15 to June 15	9 inches	1 to 3 feet	July to October	White, pink, red, lavender, purple, yellow
